■ In these countries Ecovis is represented

About Ecovis

Ecovis is a leading global consulting network with its origins in Continental Europe. It has almost 8,500 people operating in nearly 80 countries. Its consulting focus and core competencies lie in the areas of tax consultation, accounting, auditing and legal advice. The particular strength of Ecovis is the combination of personal advice at a local level with the general expertise of an international and interdisciplinary network of professionals.

Every Ecovis office can rely on qualified specialists in the back offices as well as on the specific industrial or national know-how of all the Ecovis experts worldwide. This diversified expertise provides clients with effective support, especially in the fields of international transactions and investments – from preparation in the client's home country to support in the target country. In its consulting work Ecovis concentrates mainly on mid-sized firms. Both nationally and internationally, its one stop-shop concept ensures all-round support in legal, fiscal, managerial and administrative issues.

The name Ecovis, a combination of the terms economy and vision, expresses both its international character and its focus on the future and growth.

We Support Clients During the Crisis

2020 has been completely different than we imagined. The global pandemic still dominates our lives and we have seen an unprecedented impact on the global economy. These are very difficult and turbulent times for companies and individuals.

For us at ECOVIS International it has been no different. Although the daily work in our offices has changed a lot, we are still seeing the opportunities. We have introduced new and more digital work processes. During the lockdowns, most of our employees worked from home. But we still met our partners worldwide online to support each other and share our knowledge and experience.

And why all this? Because we want to be present for our clients. We have concentrated above all on providing our clients with the most important and up-to-date information to show them what opportunities they have. We want them to continue to run their companies successfully and we want to offer them a secure path through the crisis.

This is what ECOVIS International stands for. We advise our clients personally on a local level but we have a strong network supporting each other.

Stay safe and healthy.

Kay Friedrich Thomsen
President of ECOVIS International
